

Regulation of the Council of Engineers

On the Issuance of Licenses to Practice the Regulated Engineering Profession at Adjunct Engineer, B.E. 2543 and its Amendments (No. 2) B.E. 2555 (2012), (No. 3) B.E. 2559 (2016), and (No. 4) B.E. 2564 (2021)

By virtue of the powers vested under Section 8 (6) (๓) and Section 46 of the Engineer Act, B.E. 2542 (1999) — which contains certain provisions restricting individual rights and freedoms as permitted under Section 29, in conjunction with Sections 39 and 50 of the Constitution of the Kingdom of Thailand — the Council of Engineers hereby issues the following Regulation:

Article 1 This Regulation shall be cited as the “Regulation of the Council of Engineers on the Issuance of Licenses to Practice the Regulated Engineering Profession at Adjunct Engineer, B.E. 2543 (2000).

Article 2 This Regulation shall come into force on the day following its publication in the Government Gazette.

Article 3 An applicant for a license at Adjunct Engineer must be an Ordinary Member or an Extraordinary Member of the Council of Engineers.

Article 4¹ An applicant for a license at Adjunct Engineer shall complete the prescribed application form and submit it to the Office of the Council of Engineers together with the following supporting documents:

- (1) Proof of educational qualification (if any);
- (2) Two (2) recent photographs, taken within the past twelve (12) months, full face without hat or dark glasses, size 2.5 cm wide × 3.5 cm high;
- (3) A record of professional works and the quantity of engineering work performed in the Regulated Engineering profession, in the format prescribed by the Council of Engineers Committee, certified by a Professional Engineer of at least the Ordinary level in the same field and branch as that of the applicant.

Article 5² An applicant for a license at Adjunct Engineer may apply for one (1) work at a time as prescribed in the Ministerial Regulation.

The Council of Engineers Committee shall appoint a Subcommittee or Special Experts in the relevant engineering discipline to review the applicant’s work and quantity of work, and to conduct a knowledge examination accordingly.

¹Article 4 amended by the Regulation of the Council of Engineers on the Issuance of Licenses to Practice the Regulated Engineering Profession at Adjunct Engineer (No. 4), B.E. 2564 (2021).

²Article 5 amended by the Regulation of the Council of Engineers on the Issuance of Licenses to Practice the Regulated Engineering Profession at Adjunct Engineer (No. 3), B.E. 2559 (2016).

In consideration of experience and professional competence, once the applicant has passed the examination, a license to practice the Regulated Engineering profession at the Adjunct Engineer shall be issued.

In the case where the licensee wishes to obtain a license to practice in other types or categories of work, a new application must be submitted.

Article 6³ An applicant for a license at Adjunct Engineer must possess knowledge and experience directly related to the work applied for, as follows:

(1) A bachelor's degree or higher in engineering or its equivalent, with no less than two years of professional experience in the applied field;

(2) A higher vocational certificate or equivalent in a relevant engineering discipline, with no less than four years of direct work experience in the applied field;

(3) A vocational certificate or equivalent in a relevant engineering discipline, with no less than six years of direct work experience in the applied field;

(4) A vocational certificate or equivalent in other non-engineering fields, or an educational qualification lower than a vocational certificate, with no less than ten years of work experience in the applied field.

Article 7 An applicant for a license at Adjunct Engineer who is not of Thai nationality must possess the same qualifications as stated above and provide official documentation showing permission to reside in Thailand for no less than six months for consideration.

Article 8⁴ An applicant for a license at Adjunct Engineer must pass a professional knowledge examination in Regulated Engineering practice as prescribed by the Council of Engineers Committee.

Article 9⁵ An applicant who has passed the knowledge examination under Article 8 must also undergo training and pass an assessment concerning readiness to practice the Regulated Engineering profession, in accordance with the regulations prescribed by the Council of Engineers Committee.

The provision in the first paragraph shall not apply to those who have already completed the required training and assessment of readiness to practice the Regulated Engineering profession.

Article 10⁶ A person who has been granted a special license to practice the Regulated Engineering profession under the Regulated Engineering Profession Act, B.E. 2505 (1962) and wishes to continue practicing the engineering profession.

³Article 6 — amended by the Regulation of the Council of Engineers on the Issuance of Licenses to Practice the Regulated Engineering Profession at Adjunct Engineer (No. 3), B.E. 2559 (2016).

⁴Article 8 — amended by the Regulation of the Council of Engineers on the Issuance of Licenses to Practice the Regulated Engineering Profession at Adjunct Engineer (No. 2), B.E. 2555 (2012).

⁵Article 9 — amended by the Regulation of the Council of Engineers on the Issuance of Licenses to Practice the Regulated Engineering Profession at Adjunct Engineer (No. 2), B.E. 2555 (2012).

⁶Article 10 — amended by the Regulation of the Council of Engineers on the Issuance of Licenses to Practice the Regulated Engineering Profession at Adjunct Engineer (No. 2), B.E. 2555 (2012).

(Unofficial Translation)

to continue practicing the Regulated Engineering profession in other types of work, the person shall apply for a license at Adjunct Engineer under the provisions of the Engineer Act, B.E. 2542 (1999) and must pass the examination and training as prescribed in Articles 8 and 9.

Article 11⁷ Any application, registration form, license issuance, membership record, administrative order, or any proceeding carried out under this Regulation in the form of electronic data or electronic transactions shall be deemed valid and enforceable in accordance with this Regulation. The criteria and procedures shall be in compliance with the provisions of the law on electronic transactions.

Promulgated on 22 December B.E. 2543
